

PROJECT REPORT

Website Redesign & Modernization of National Career Service (NCS)

Created By: Mohammad Asim

Registration Number: 12518421

1. Introduction

This project focuses on redesigning the official website of the National Career Service (NCS). The original website provides employment-related services but has an outdated UI and limited interactivity. The goal was to modernize the homepage while keeping its purpose intact.

2. Objective of the Project

- ✓ Improve visual appearance
- ✓ Enhance user experience
- ✓ Add modern layout and features
- ✓ Strengthen functionality and accessibility
- ✓ Make the website responsive
- ✓ Present information clearly and professionally

3. Features of Original NCS Website

- Job search
- Career centers
- Employer registration
- Job fairs
- Counsellor services
- Resources

4. Unique Improvements Added in the New Version

4.1 Modern Topbar

- High-quality Indian flag
- Clean typography and layout

4.2 Improved Header Section

- Professional NCS logo placement
- Updated navigation
- Employer and Candidate Login buttons

4.3 Enhanced Hero Section

- Gradient background
- High-resolution hero image
- Modern heading and structure

4.4 Advanced Job Search Filters

- Job Title
- State filter with 20+ options
- District filter
- Job type filter
- Salary range filter
- Enhanced search UI

4.5 Quick Action Dashboard

- Find Jobs

- Post Job
- Skill Development
- Career Centres
- Job Fairs
- Career Counselling

4.6 Modern Footer Section

- Contact details
- Useful links
- Social media links

5. Technical Enhancements

- ✓ HTML5 structure
- ✓ CSS3 responsive layout
- ✓ Google Fonts
- ✓ Improved spacing and shadows
- ✓ Mobile-friendly grid system

6. Conclusion

The redesigned NCS website now looks modern, professional, and user-friendly. It enhances accessibility, usability, and job-search experience for users.
